Construction

By the work one knows the workman.

Jean de la Fontaine

Building a custom home is more than assembling walls and windows into a habitable structure. No matter how large or small, traditional or contemporary, in town or out, yours should be a home that looks, feels and functions exactly as you want it to.

That's why it's so important to choose a builder who understands your plans and embraces them as his own.

Whether you have blueprints in hand, are consulting with an architect or designer, or are simply planning ahead, Camperdown Group begins by discussing your plans and expectations in great detail. From the on-site project superintendent to our own staff of master craftsmen, our focus is on shaping your ideas and dreams into a space that's made-to-measure just for you.

We guarantee a perfect fit. No shortcuts. No second-rate materials. No skimping on quality or service. Why not try us on for size?

Whether you have blueprints in hand, are consulting with an architect or designer, or are simply planning ahead, Camperdown Group begins by discussing your plans and expectations in great detail. From the on-site project

Renovation

If you would be remembered, do one thing superbly well.

Saunders Norvell

In theory, reinventing existing space to meet modern needs should combine the best of both worlds: the character of the old with the innovation of the new. But, too often, homeowners are conditioned to believe that schedule delays, cost overruns, and second-rate quality are integral parts of the renovation process.

At Camperdown Group, that attitude just rubs us the wrong way.

That's why we take a different approach to renovation projects. We put all our resources to work toward achieving a seamless transition between old and new. Fine materials. Experienced craftsmen. Exacting attention to detail. The result is a pleasing flow, both physically and aesthetically, that makes your renovation seem like a natural evolution.

There's no better way to add quality and value to your home. When the dust settles, you'll wonder why you ever worried at all.

Building a custom home is more than assembling walls and windows into a habitable structure. No matter how large or small, traditional or contemporary, in town or out, yours should be a home that looks, feel.

Restoration

Each honest calling, each walk of life, has its own elite, its own aristocracy based on excellence of performance.

James Bryant Conant

Restoring the beauty and dignity of historic structures is a delicate task. Where details have been destroyed, they must be recreated. Where materials are worn, they must be replaced. When character has become hidden, it must be rediscovered and revealed. And where history exists, it must be painstakingly preserved.

Camperdown Group shares your appreciation for historic integrity and has the expertise to capture the original grandeur of aged materials. Often, that requires the use of time-honored techniques and traditional hand tools. Always, it requires skill, patience and precision. Camperdown Group's master craftsmen are proud to devote the time and attention that each unique restoration deserves.

From once-lovely historic homes to stately houses of worship, Camperdown Group celebrates the heritage of irreplaceable landmarks.

That's why it's so important to choose a builder who understands your plans and embraces them as his own. Kitchen island with chairs.
