wave length n . **1** the distance between two successive peaks of a wave **2** architecture that is beautiful and functional, completely at home in its surroundings

Hughes Main Library for Greenville County

Greenville, South Carolina

PO Box 2527, Greenville, SC 29602

CRAIG GAULDEN DAVIS

architecture planning interiors

Craig Gaulden Davis believes libraries should have deep roots in the community. That's why we work in close collaboration with the library's director, civic leaders, government officials, and other community representatives to discover what makes you special.

We explore your history, discuss your values, and listen to your aspirations. When a library is allowed to develop from the inside out, it opens new doors to the exciting world beyond.
