

**social studies** *n.* **1** the study of geography, civics, sociology, history, economics and other subjects related to the functioning of human society **2** architecture that gives students the freedom to engage all their senses in the learning process

PO Box 2527, Greenville, SC 29602

## CRAIG GAULDEN DAVIS

architecture planning interiors

Craig Gauden Davis understands that students learn best in surroundings that are flexible, functional and secure. That's why we design schools that play an active role in helping each child reach his or her greatest potential. We're passionate about creating educational spaces that prepare students to meet the challenges they'll face in a complex, changing world.
