the world as seen by josh simpson

**“Josh Simpson creates planets  
that are mid-way between the micro and the macro.  
His work has a uniqueness that is fascinating to all.”**

It's a small miracle, breathing life into glass.  
Josh Simpson endows his Planets with the depth and detail  
of the universe itself – images of earthly, aquatic  
and celestial realms.

Combining exquisite skill with artistic flights of fancy,  
Simpson harnesses this incredibly beautiful  
and impossibly difficult substance  
to express the wonders he beholds.

In his hands, ours is truly a small world.
