

BusinessWeek magazine knows a smart move.

That's why Hubbell Lighting's new corporate headquarters is among just ten worldwide winners of *BusinessWeek* and *Architectural Record* magazines' Good Design is Good Business competition.

Hubbell had definite goals; McMillan Smith & Partners designed a way to achieve them. Since moving into its facility, Hubbell has seen solid improvements in productivity, creativity, quality, and even recruitment.

That's good business, and that's the real advantage of good design.

Hubbell Lighting, designed by McMillan Smith & Partners, has earned five prestigious awards, has been featured in 25 local, regional and national publications, and is registered for Silver LEED certification.
